

2nd Grade Choice Board

Students: Enjoy your day while not at school. Your mission is to complete at least **5 things** on this board.

This sheet is due to your teacher one week from today or you will be counted absent. Have fun!!

<p>Play outside!</p> 	<p>Use a deck of cards to practice addition and subtraction.</p> 	<p>Write someone a nice note.</p> 	<p>Make yourself a sandwich.</p> 	<p>Show 329:</p> <table border="1" data-bbox="1591 438 1938 584"> <thead> <tr> <th>Hundreds</th> <th>Tens</th> <th>Ones</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> <td></td> </tr> </tbody> </table>	Hundreds	Tens	Ones			
Hundreds	Tens	Ones								
<p>Your CHOICE! Write what you did:</p>	<p>Listen to your favorite song and dance!</p> 	<p>Play with your siblings or friends.</p> 	<p>Find a few coins. Add them up and draw a picture to represent your work.</p> 	<p>Practice stretching 10 words.</p> 						
<p>Make a clock.</p> 	<p>Create a picture using only three colors.</p> 	<p>Read a book. How did a Character solve a problem?</p> 	<p>Write a sentence or draw a picture telling me how you're feeling today and why.</p>	<p>Write the number that expanded notation shows:</p> $900+40+3 = \underline{\quad}$ $700+10+2 = \underline{\quad}$ $100+60+8 = \underline{\quad}$						
<p>Skip, then hop on one foot, and gallop around the kitchen table. How many times did you go?</p>	<p>Write a story problem. Solve it.</p> 	<p>Blow up a balloon. See how long you and a partner can keep volleying it back and forth.</p> 	<p>Your CHOICE! Write what you did:</p>	<p>Write 5 addition problems and solve.</p> 						
<p>Watch a movie. Name a character and the setting.</p>	<p>Finish this sentence: My favorite color is _____ because _____. Draw a picture.</p>	<p>Do 20 sit ups.</p> 	<p>Put a puzzle together.</p> 	<p>Read a book to the mirror.</p> 						

Pick a Math Activity!

- Pick two playing cards and use cereal pieces or macaroni to make a model of an addition or subtraction fact.
- Play *Fact War* by splitting the cards into two piles. Each player flips two cards over, and the player with the greater sum/difference keeps both cards.
- Pick two cards and draw a picture to show an addition or subtraction fact.
- Write a word problem to go with a fact. For $3 + 2$, you might write "There were 3 brown dogs and 2 white dogs. How many dogs were there?" Then solve your word problem.
- Spread out all the cards on the table. Say a sum/difference and have your child use the cards to make the fact that goes with it. For example, you say "5" and your child might choose $3 + 2$ or they may choose $9 - 4$.
- Play *What's Missing*. Read a fact to your child with one number missing. Have your child tell you what number is missing. For example, $? + 5 = 10$. What number is missing?

For something different, you could use dice instead of playing cards!

Other Resources to use at home:

BLOG site of the MEDIA SPECIALISTS, Mrs. Seeger and Mrs. Waltman

There are lots of great things to do within these links!!
