

4th Grade Choice Board

Students: Enjoy your day while not at school. Your mission is to complete at least **5 things** on this board.

This sheet is due to your teacher one week from today or you will be counted absent. Have fun!!

<p>Show \$1.51</p>	<p>Write a made up story about your day using descriptive words. (at least 5 sentences)</p>	<p>What are 3 numbers between 6.8 and 7.8?</p>	<p>Play outside.</p> 	<p>Your CHOICE! Write what you did:</p>
<p>Make your own craft.</p> 	<p>Draw a picture using the complementary colors red and green.</p> 	<p>Do an activity that gets your heart rate up.</p> 	<p>Think about a place you've visited. How is the weather or landforms different from Albert Lea?</p>	<p>Draw a picture of your favorite scene in a movie.</p> 
<p>Listen to your favorite song and dance!</p> 	<p>Your CHOICE! Write what you did:</p>	<p>Read a book inside a blanket fort.</p> 	<p>Do a chore around the house.</p> 	<p>Make a card for someone.</p> 
<p>Write at least 5 sentences about your favorite movie.</p> 	<p>Turn a story into a play. Act it out!</p> 	<p>Sing along to at least two of your favorite songs.</p> 	<p>Write a sentence or draw a picture telling me how you're feeling today and why.</p>	<p>Solve, then create your own problems that follow the pattern.</p> $2 \times 3 \times 3 \times 3 =$ $3 \times 6 \times 3 =$ $9 \times 3 \times 2 = \quad 6 \times 9 =$
<p>Put these fractions in order on a number line.</p> $\frac{1}{3} \quad \frac{4}{5} \quad \frac{1}{2}$	<p>Help make a meal.</p> 	<p>Complete a puzzle.</p> 	<p>Find words around your house. Read and write at least 10 of them.</p>	<p>Read a book. Write a 10 word summary.</p> 

Pick a Math Activity!

- Pick two playing cards and use cereal pieces or macaroni to make a model of a multiplication or division fact.
- Play *Fact War* by splitting the cards into two piles. Each player flips two cards over, and the player with the greater product/quotient keeps both cards.
- Pick two cards and draw a picture to show a multiplication or division fact.
- Write a word problem to go with a fact. For 3×6 , you might write "There were 3 bags of apples and 6 apples in each bag. How many apples were there?" Then solve your word problem.
- Spread out all the cards on the table. Say a product/quotient and have your child use the cards to make the fact that goes with it. For example, you say "12" and your child might choose 3×4 or they may choose 24 divided by 2.
- Play *What's Missing*. Read a fact to your child with one number missing. Have your child tell you what number is missing. For example, $8 \times ? = 56$. What number is missing?

For something different, you could use dice instead of playing cards!

Other Resources to use at home:

BLOG site of the MEDIA SPECIALISTS, Mrs. Seeger and Mrs. Waltman.
There are lots of great things to do within these links!!
