Name: _____ Grade: _____

I can write an informational piece on a topic and support my point of view with reasons and information.

Four-Square Writing 1: Choose whether you will write about your favorite activity, book or place. Then, complete the squares with your reasons and supporting details.

2 (Reason and supporting details)	3 (Reason and supporting details)
<p>My favorite <u>activity/ book/ place</u> is _____.</p> <p>(circle one) (finish the sentence with your</p>	
4 (Reason and supporting details)	5 (Wrap-up sentence)

Challenge: Turn the paper over and change your four-square into a paragraph. Remember to use connecting words and a good hook.

Name: _____ Grade: _____

I can write a creative text to develop real or imagined events. I can include descriptive details and clear event sequences in my writing.

Creative Writing 2: Choose one of the story starters below. Then, write a story using that story starter. Include many details so the reader can visualize what you describe. Remember to use a good hook to start your story.

<p>Choice 1: If you could live and work anywhere when you grow up, where would you live? What kind of job would you have? This could be a dream job!</p>	<p>Choice 2: What is your favorite holiday or special day of the year? What makes it special? What do you like to do on that day?</p>	<p>Choice 3: You get to travel to space! Where do you go? What do you see and learn? Do you find something that surprises you?</p>	<p>Choice 4: You are the teacher for the day. Write what happens in your classroom. What do you do differently than your teacher?</p>

Continue on the back if you need more space.

Pick a Math Activity!

- Pick two playing cards and use cereal pieces or macaroni to make a model of a multiplication or division fact.
- Play *Fact War* by splitting the cards into two piles. Each player flips two cards over, and the player with the greater product/quotient keeps both cards.
- Pick two cards and draw a picture to show a multiplication or division fact.
- Write a word problem to go with a fact. For 3×6 , you might write "There were 3 bags of apples and 6 apples in each bag. How many apples were there?" Then solve your word problem.
- Spread out all the cards on the table. Say a product/quotient and have your child use the cards to make the fact that goes with it. For example, you say "12" and your child might choose 3×4 or they may choose 24 divided by 2.
- Play *What's Missing*. Read a fact to your child with one number missing. Have your child tell you what number is missing. For example, $8 \times ? = 56$. What number is missing?

For something different, you could use dice instead of playing cards!
