

5th Grade Choice Board

Students: Enjoy your day while not at school. Your mission is to complete at least **5 things** on this board.

This sheet is due to your teacher one week from today or you will be counted absent. Have fun!!

<p>Read a book. Compare or contrast two settings within the book.</p>	<p>Put these fractions & decimals in order on a number line. $\frac{2}{3}$ $\frac{1}{4}$.33 .5</p>	<p>Blow up a balloon. Volley it back and forth with a partner.</p> 	<p>Write a kind note to someone.</p> 	<p>Solve, then create your own problems that follow the pattern. $2 \times 36 =$ $4 \times 10 =$ $4 \times 6 =$ $4 \times 36 =$</p>
<p>Your CHOICE! Write what you did:</p>	<p>Play outside!</p> 	<p>Make a healthy snack.</p> 	<p>Use a deck of cards to practice multiplication. (0-9)</p> 	<p>Find an example of a cube, cylinder, and rectangular prism.</p> 
<p>Read a nonfiction book. Who or what was it about?</p> 	<p>Solve, then create your own problems that follow the pattern. $40 \div 4 =$ $24 \div 4 =$ $67 \div 4 =$</p>	<p>Draw a picture and color it.</p> 	<p>Write a poem and try to make it into a song to sing.</p> 	<p>Watch a movie based on a book you've read.</p> 
<p>Clean your room!</p> 	<p>11 14 15 16 14 Find the mean and mode.</p>	<p>Use a laundry basket and toss a sock ball inside. How far away can you stand and still make it in the basket?</p>	<p>Read a book. Write a summary in 10 words or less.</p> 	<p>Make something out of a cardboard box.</p> 
<p>Sing along to three of your favorite songs.</p> 	<p>Write a sentence or draw a picture telling me how you're feeling today and why.</p>	<p>Play a board or card game.</p> 	<p>Make a grocery list. If possible, figure out how much the items will cost.</p> 	<p>Your CHOICE! Write what you did:</p>

Pick a Math Activity!

- Pick two playing cards and use cereal pieces or macaroni to make a model of a multiplication or division fact.
- Play *Fact War* by splitting the cards into two piles. Each player flips two cards over, and the player with the greater product/quotient keeps both cards.
- Pick two cards and draw a picture to show a multiplication or division fact.
- Write a word problem to go with a fact. For 3×6 , you might write "There were 3 bags of apples and 6 apples in each bag. How many apples were there?" Then solve your word problem.
- Spread out all the cards on the table. Say a product/quotient and have your child use the cards to make the fact that goes with it. For example, you say "12" and your child might choose 3×4 or they may choose 24 divided by 2.
- Play *What's Missing*. Read a fact to your child with one number missing. Have your child tell you what number is missing. For example, $8 \times ? = 56$. What number is missing?

For something different, you could use dice instead of playing cards!

Other Resources to use at home:

BLOG site of the MEDIA SPECIALISTS, Mrs. Seeger and Mrs. Waltman.
There are lots of great things to do within these links!!
