## Kindergarten Choice Boards

- Split a deck of cards evenly and play a game of *Memory*.
- Pick two cards and use cereal pieces or macaroni to compare which one is greater, fewer, or equal.
- Play *Number War* by splitting the cards into two piles. Each player flips a card over, and the player with the greater number keeps both cards.
- Pick a card and draw a picture to show this number quantity.
- Count different collection items.

For something different, you could use dice instead of playing cards!
